Professional Summary

Full-Stack .NET Developer with hands-on experience building web applications using ASP.NET Core MVC, ASP.NET Core Web API, Angular, Entity Framework Core, SQL Server, and MySQL. Skilled in RESTful APIs, JWT authentication, CRUD operations, responsive UI design, and database-driven application development. Focused on writing clean, maintainable code and delivering practical solutions for real business problems.

Technical Skills

Languages: C#, JavaScript, TypeScript, HTML5, CSS3

Backend: ASP.NET Core MVC, ASP.NET Core Web API, Entity Framework Core, LINQ

Frontend: Angular, Bootstrap, Responsive Design, Reactive Forms

Database: SQL Server, MySQL, Stored Procedures, Database Design

Tools: Visual Studio, VS Code, Git, GitHub, Postman, Swagger

Concepts: OOP, SOLID Principles, MVC Architecture, Dependency Injection, JWT, REST APIs

Projects

Online Store & Inventory Management System

ASP.NET Core MVC | Entity Framework Core | MySQL | Bootstrap

- Built an e-commerce platform with product catalog, shopping cart, checkout, and order tracking.
- Implemented full CRUD operations across multiple modules with validation and error handling.
- Designed a relational database with multiple tables using Entity Framework Core and MySQL.
- Optimized data access using LINQ and eager loading to improve page performance.
- Applied clean MVC architecture with separation of concerns for maintainability.

GitHub: github.com/QamarZaman2552

Angular Shopping System

Angular | ASP.NET Core Web API | SQL Server | Bootstrap

- Developed a Single Page Application using Angular and ASP.NET Core Web API.
- Implemented product listing, add-to-cart, order placement, and user authentication features.
- Created reusable Angular components for maintainable UI structure.
- Used Reactive Forms with client-side validation for better user experience.
- Integrated RESTful APIs with JWT-based authentication for secure data flow.

Achievements

- Developed 2+ full-stack web applications from scratch using ASP.NET Core and Angular.
- Implemented 20+ CRUD operations across multiple modules with proper validation.
- Improved query performance through optimized data access and LINQ-based filtering.
- Built responsive user interfaces compatible with desktop and mobile devices.
- Integrated REST APIs and authentication flow for secure frontend-backend communication.
- Applied clean coding practices using MVC architecture, Entity Framework Core, and modular design.

Education

Bachelor of Science in Information Technology (BSIT)

University of Education (Lahore)
