Qamar Zaman

Full-Stack .NET Developer

+92 321 6068091 • Lahore, PK • qamr2026zaman@gmail.com • github.com/QamarZaman2552 • linkedin.com/in/qamarzamaan

Professional Summary

Full-Stack .NET Developer with hands-on experience building web applications and REST APIs using ASP.NET Core MVC and Web API (.NET 8, 9, 10), Angular (19, 22), Entity Framework Core, and SQL Server. Completed a 2-month internship at Xictek Systems and delivered 2 local client projects, including a live-deployed dairy farm system. Built a 10+ module ERP as a final year project and integrated Google Gemini AI in two projects, with 180+ automated tests across projects. Seeking a junior .NET / full-stack developer role.

Technical Skills

Programming Languages: C#, JavaScript, TypeScript, SQL, HTML5, CSS3

Backend: ASP.NET Core MVC, Web API, Entity Framework Core, LINQ, Identity, JWT, BCrypt

Frontend: Angular, Bootstrap, Chart.js, Responsive Design

Database: SQL Server, MySQL, Stored Procedures, Database Design

Concepts: Clean Architecture, MVC, OOP, SOLID Principles, Dependency Injection, REST APIs

Testing, AI & Tools: xUnit, Google Gemini API, Visual Studio, VS Code, Git, GitHub, Postman, Swagger

Experience

.NET Intern — Xictek Systems *Aug 2026 – Sep 2026*

- Built the AI Healthcare Assistant Platform with AI symptom analysis using Google Gemini.
- Built HisabDo (capstone), a REST API for a mobile ledger app with 33 endpoints across 8 modules.

Full-Stack Developer — Local Clients

- Built the Al-Muzaffar Dairy Farm Management System, deployed on live shared hosting.
- Built Amal Collection, an AI-powered e-commerce website for a local clothing brand.

Projects

Portfolio: qamarzaman2552.github.io/PortfolioWebsite

Enterprise ERP & Business Management System (Final Year Project)

ASP.NET Core 9 | Angular 19 | SQL Server | EF Core | Chart.js

- Built a full-stack ERP application with 10+ modules, including HR, Payroll, Leave, Attendance, CRM, Inventory, Sales, and Finance.
- Used Clean Architecture (EF Core Code-First) and JWT authentication; added a Kanban task board and Chart.js dashboards, with 65+ automated tests.

AI Healthcare Assistant Platform (Xictek Systems Internship)

ASP.NET Core (.NET 8) | Angular 22 | SQL Server | JWT | Google Gemini

- Developed a full-stack AI healthcare web app with role-based authentication (JWT), appointment management, and AI symptom analysis using Google Gemini.
- Delivered 62 documented REST APIs and 117+ automated tests, following Clean Architecture.

Amal Collection — AI-Powered E-Commerce Website (Local Client)
ASP.NET Core MVC | C# | EF Core | SQL Server

- Developed a complete e-commerce platform for a local clothing brand with product catalog, cart/wishlist, guest checkout (COD), order tracking, and an admin dashboard.
- Integrated a Gemini AI chatbot and a recommendation engine based on browse history to boost customer engagement; passwords secured with BCrypt.

Al-Muzaffar Dairy Farm Management System (Local Client)
ASP.NET Core MVC | C# | EF Core | SQL Server | Identity | Bootstrap | xUnit

- Developed a complete dairy farm management system covering animal catalog, milk tracking, sales/installments, Khata ledger, and reports.
- Implemented clean layered architecture, ACID transactions, and soft delete; unit tested with xUnit and deployed on live shared hosting.

Education

Bachelor of Science in Information Technology (BSIT) *Jul 2026*
University of Education (Lahore)
